

An Intensive 7-Day Training Course In “Effective Classroom Management, Teaching Reading and Language Arts, Early Literacy, Maths - Science & Environmental Education, Alternative Schools.”

Introduction

This highly-interactive **TURKEY TRAININGS** “Effective Classroom Management, Teaching Reading and Language Arts, Early Literacy, Maths - Science & Environmental Education, Alternative Schools” training seminar will help you understand how to prepare activities and lesson plans for teaching several areas while also managing your classrooms effectively.

Effective management in the classroom is discussed as a co-operative enterprise linked to classroom and school processes and the development of good relationships.

This training seminar will help teachers learn skills and techniques that enable the teachers to feel more in control of their classes while applying techniques that scaffold their students’ learning in various areas.

This **TURKEY TRAININGS** training seminar will also examine the efficient approaches and alternative education systems in the field of education to learn and use them in the participants’ own classes.

This TURKEY TRAININGS training seminar will highlight:

- Learning about the principles of being an effective teacher.
- Organizing classroom environments and setting up effective classroom rules.
- Learning about process writing approach and writing lesson plans for journal, personal, story, poetry, expository, and personal writing.
- Being able to use assessment tools in reading and writing workshops.
- Learning to use picture storybooks and other materials for teaching early literacy.
- Getting information about alternative schools (Reggio Emilia, Montessori, Forest Schools, High Scope) and different approaches in education (Project Approach, Waldorf Approach, Learning Centers) with interactive instruction.
- Learning to teach maths and science with enjoyable activities.
- Teaching how to be aware of the natural environment and how to protect the environment.

Objectives

By the end of this TURKEY TRAININGS training seminar, you will have learned to:

- Identify and solve disruptive problems in classrooms
- Use creative techniques and strategies to improve students' reading comprehension and writing skills
- Use communication techniques that help maximize students' motivation and learning
- Write and implement lesson plans for different writing genres
- Apply modern techniques of early literacy instruction in classroom settings
- Learn the essentials of alternative schools (Reggio Emilia, Montessori, Forest Schools, High Scope) and different approaches in education (Project Approach, Waldorf Approach, Learning Centers)
- Draw-up their students to learn maths and science concepts with fun
- Choose suitable materials from nature and use them in environmental education activities.

Training Methodology

Participants in this **TURKEY TRAININGS** "Effective Classroom Management, Teaching Reading and Language Arts, Early Literacy, Maths - Science & Environmental Education, Alternative Schools" seminar will receive a thorough training on the subjects covered by the seminar outline using a variety of hands-on learning experiences with two university instructors who hold Ph.D.s in their area of specialties. Training methodology includes short videos, findings of research studies, participative discussions, experiential activities, self and team works, worksheets and powerpoint presentations.

Organisational Impact

Your schools will benefit from intensive teacher training programs since you will be more experienced and knowledgeable about classroom management, rules of effective teaching, maths - science & environmental education, alternative schools, early literacy and teaching and learning about reading and language arts.

Participants will learn to:

- Follow process writing approach when teaching writing
- Use children's literature when teaching reading and language arts
- Recognise disruptive behaviours and apply problem solving strategies
- Identify and use principles of effective teaching

- Encourage students to benefit from experiences in the learning settings investigating the teaching of science and mathematics.
- Create a unique culture that encourages and builds respect between children in classrooms like the ones in the alternative schools and different approaches that are learned in the course.
- Foster learning for change essential to the transformation in the thinking, decision making, and daily living through environmental education.
- Provide children with developmentally appropriate settings, materials, experiences, and social support that encourage early forms of reading and writing to flourish and develop into conventional literacy with effective early literacy instruction.

Personal Impact

This TURKEY TRAININGS “Effective Classroom Management, Teaching Reading and Language Arts, Early Literacy, Maths - Science & Environmental Education, Alternative Schools” training seminar will give participants the confidence, energy and skills to develop high performing classes by learning effective teaching techniques.

Participants will:

- Be able to prepare lesson plans covering diverse writing genres.
- Manage their classrooms effectively.
- Learn about how to develop their leadership and communication skills.
- Help their students to increase their listening and reading comprehension.
- Apply techniques of different approaches and alternative schools in classrooms.
- Find out examples of activities related with reading, rhyming, singing, and using language creatively to influence literacy development.
- Transfer the skills learned in the seminar to prepare daily plans of maths and science activities.
- Learn to teach environmental education outside the traditional classrooms like aquariums, zoos, parks, and nature centers.

Who Should Attend?

This TURKEY TRAININGS training course is suitable to a wide range of professionals but will greatly benefit:

- Elementary school teachers
- Early childhood teachers
- Language arts teachers
- Teacher trainers
- School principals
- Preschool, kindergarten and elementary school pre-service teachers.

Seminar Outline

DAY 1

Effective Teaching Strategies - Classroom Management - Alternative Schools of Reggio Emilia and Montessori

- Exploring Classroom Strategies for Effective Teaching and Learning
- Rules of Classroom Management
- Analysing Classroom Organisation
- Motivation
- Effective Communication
- Leadership
- Time Management
- Creating Effective Classroom Rules
- Examine the Principles of Reggio Emilia Schools
- Learn to Use Light and Shadow in the Activities at Reggio Emilia Schools
- Model the Usage of Natural Materials in Young Children's Learning at Reggio Emilia Schools
- Explore the Principles of Montessori Schools
- Reinforce Young Children's Their Own Learning at Montessori Schools
- Determine the Usage of the Unique Materials and Classroom Setting of Montessori Schools

DAY 2

Reading Education - Process Writing Approach - Alternative Schools of High Scope and Forest Schools

- The Roles of Literature in Language Arts Teaching and Learning
- Guided Reading and Writing in the Language Arts Workshop
- Comprehension Strategy Instruction in the Language Arts Workshop
- Independent Reading, Writing, and Conferring in the Language Arts Workshop
- Features of Process Writing Approach
- Strategies and Activities During Prewriting, Drafting, Revising, Editing, and Sharing/Publishing
- Examine the Principles of Forest Schools
- Teach Children to Survive and Explore in the Forest
- Learn to Feel Comfortable in the Nature and to be a Part of Nature
- Explore the Principles of High Scope
- Teach Children to Construct their Own **Learning** by Being Actively Involved in Working with Materials, People and Ideas

DAY 3

Reading and Language Arts Education - Different Genres of Writing - Alternative Teaching Techniques of Project Approach and Waldorf Approach

- Collaborative Learning in the Language Arts Workshop
- Journal Writing
- Discover the Principles of Alternative Teaching Techniques of Project Approach
- Learn the Importance and Use of Field Trips and Expert Visits in Project Approach
- Examine the Principles of Alternative Teaching Techniques of Waldorf Approach
- Explore the Idea of Waldorf Approach of “Learning with Engaging Head, Heart, and Hands - Thinking, Feeling, and Doing”

DAY 4

Reading and Language Arts Education - Different Genres of Writing - Alternative Teaching Approach of Learning Centers

- Teaching and Learning about Personal Writing
- Providing Effective Feedback in Reading and Language Arts Workshop
- Setting Up and Using the Learning Centers in the Classrooms
- Teaching Creatively at the Learning Centers

DAY 5

Reading and Language Arts Education - Different Genres of Writing - Early Literacy Education

- Teaching and Learning about Poetry Writing
- Importance of Teaching Language Arts
- Common Obstacles and Mistakes in Teaching Language Arts
- Learning the Details of “Rich Teacher Talking” For Language Development
- Using “Dialogic Reading” with Picture Storybooks
- Scaffold Children in the Area of “Phonological Awareness”
- Using the Alphabet Creatively
- Assist Children with “Early Reading and Writing Activities”
- Learn to Use “Focused Pre-Literacy Activities” Effectively

DAY 6

Teaching and Learning about Fiction and NonFiction Writing - Environmental Education

- What is Creative Writing
- Why is Creative Writing Important?
- Elements of Story Writing
- Elements of Expository Writing
- How to Overcome Writer's' Block
- Teach to respect the world's outdoor places as much as to love them within the environmental education
- Explore environmental issues, engage in problem solving, and take action to improve the environment
- Develop a deeper understanding of environmental issues and have the skills to make informed and responsible decisions.

DAY 7

Assessment in the Language Arts - Persuasive Writing - Maths & Science Education

- Teaching and Learning about Persuasive Writing
- Key Issues and Types of Assessments
- Strategies for Classroom Assessment
- Observing Language Learners
- Making Use of Portfolios
- Structured Performance Assessments
- Teaching mathematics and science concepts in schooling spaces (e.g., classrooms, school laboratories, corridors, etc.) and out-of-school settings (such as community buildings, museums, gaming centers, crafts areas, workplaces, etc.) to understand how to support learners' participation in creative activities and practices.
